Personalized transportation for your children

We all need peace of mind when it comes to the safety of our children. With demands on our time, increased traffic and unpredictable weather, it can be a challenge getting our children to and from after-school activities.

actKIDvity was created to bridge the gap between parental schedules and children's social activities. Our new fleet of climate controlled Mercedes-Benz vans accommodate up to 11 children. We ensure your child reaches their activity safely and on time.
